

City of Marlborough

GIS – Pre-Printed Map Selection

Maps Currently Available:

Aerial Photograph for the entire City – This is a true color image of the whole of Marlborough. It was shot in the early spring of 2000 and is printed on heavy photographic paper. This is a beautiful map that is suitable for framing. It can be printed in several different sizes depending on you needs.

Prices for Aerial Images: D-Size - \$40.00, E-Size - \$50.00

Topographic Map – This a standard topographic map very similar to a USGS topographic quadrangle map. It shows the entire City of Marlborough with 2-foot contour intervals.

Hydrologic and Water Resources Map - This map uses sources from the United State Geological Survey to provide an interesting and informative look at the ground water resources within the City of Marlborough.

Floodplains FEMA-FIRM Map – This map uses the information provided the Federal Emergency Management Agency (FEMA) in their Flood Insurance Rate Maps (FIRM). It is a full color, city-wide map that shows those areas with flooding potential.

Zoning Map – City-wide zoning map with a complete listing of ordinance changes over the years. This is a very good zoning reference map for the entire city.

Ward and Precinct Map – Again, a full color reference map that clearly shows the various political wards and precincts throughout the City of Marlborough. Also provided on the map is a complete reference list and contact information for our City Councilors and School Committee members.

More maps will follow soon.

*** Please remember that we may be able to accommodate your needs more specifically if you do not see exactly what you require here. If this is the case, please contact us and we will be happy to discuss your needs further.
