

LEAVES AND YARD WASTE DISPOSAL

During the months of October and November Marlborough residents will be allowed to dispose leaves and yard waste at the Resident Drop-off Facility, in vehicles with sideboards, thereby allowing a greater vehicle capacity, as long as the vehicle is properly stickered for the Facility. Should multiple trips be necessary for the clearing of your property, please notify the security guard. Please take note that all leaves and yard waste must come from your own residence or from your own commercial locations are not allowed and are a violation of the facility regulations. Violation of the regulations could result in sticker suspension or revocation. This temporary change is to allow residents with large yards to dispose leaves and yard waste without having to make multiple trips to the facility and will end on December 1st.
