

Sheep Falls Brook

This one-mile trail provides a wooded loop path connecting the Assabet River Rail Trail (ARRT) near Sasseville Way to the ARRT entrance near Boston Scientific Way. The trail meanders through the woods over hilly terrain and offers views of the small, babbling Sheep Falls Brook. Most of the trail is located on private property owned by Boston Scientific which granted the City of Marlborough a trail easement. Please respect the property and stay on the marked trail. Enjoy the shady wooded trails where deer and otters can be spotted.
