

# COVID-19 Update

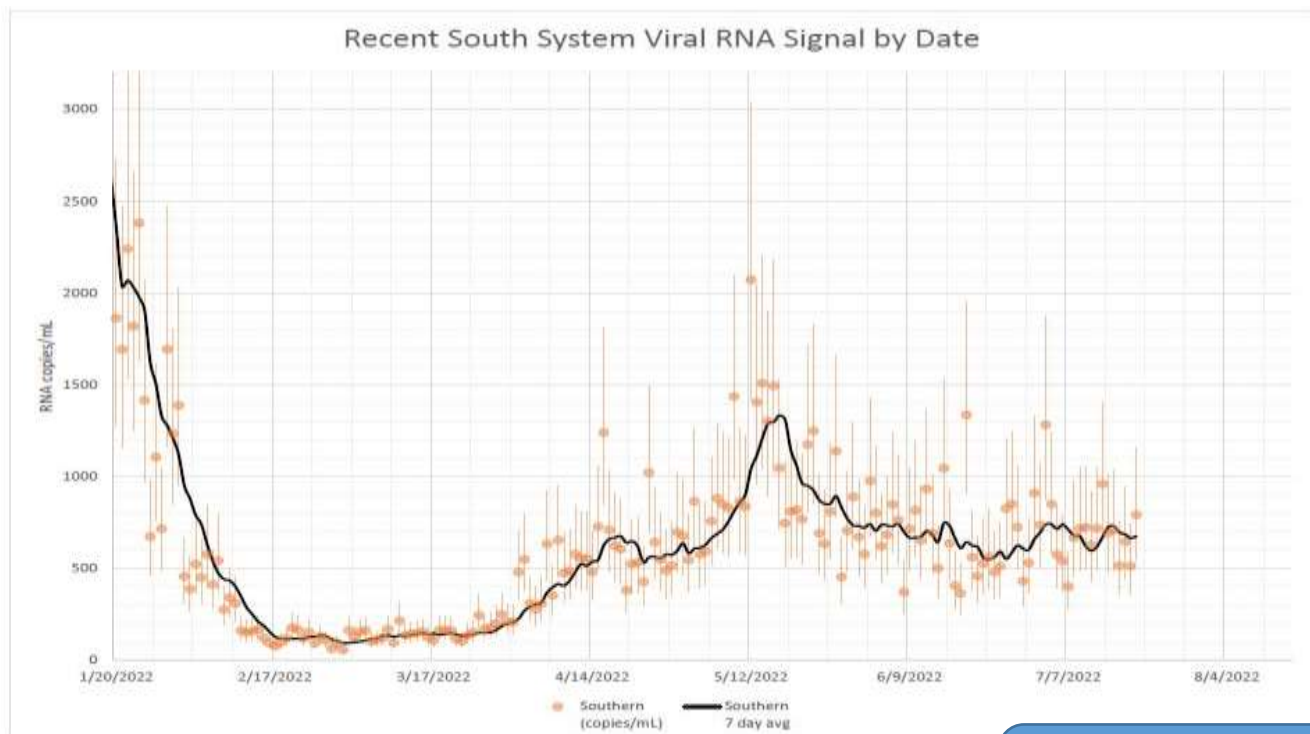

7/22/2022

Note: As of 7/8/2022 we will be presenting revised metrics due to the diminishing analytical value of DPH reported case counts when determining the prevalence of COVID-19 in our community (home tests are now dominant and not reported). To view additional city/town and state data not shown below click [HERE](#), then click on **CITY & TOWN DATA**.

• Total Confirmed Marlborough Cases (Since 2/1/2020)	12,000
• Total Confirmed Case Count (past 2 weeks)	86
• 14-Day Percent Positivity (PCR Testing)	7.62%
• <b>Cumulative pandemic Deaths since 2/1/2020</b>	<b>138</b>
<b>Increase since last week's report</b>	<b>0</b>
<b>Gender:</b> Male	59
Female	79
<b>Age (yrs.):</b> 20 - 29	1
30 - 39	0
40 - 49	1
50 - 59	15
60 - 69	30
70 - 79	24
80 - 89	34
90+	33

## Area Wastewater Data - Recent MWRA South System COVID-19 Viral RNA Detected

Note: The increased or decreased detection of COVID-19 in wastewater typically precedes COVID-19 clinical testing and serves as an early and more accurate indicator of COVID-19 prevalence in the community.

The graphs include error bars which represent the range of result variability caused by laboratory processing.
