

Sheep Falls Brook
Conservation Area

This is a one mile trail that provides a wooded loop path connecting Sasseville Way and the ARRT to the ARRT entrance near Boston Scientific Way. The trail meanders through the woods over hilly terrain and offers views of the small, babbling Sheep Falls Brook. The majority of the trail is located on private property owned by Boston Scientific which has granted the City of Marlborough an easement that allows trail use. Please respect the property. Enjoy the shady wooded trails where deer and otter can be spotted.
