PERMIT #: _____
ISSUE DATE: _____

FEE: \$10.00

Fencing is regulated by Section 63-141 through 63-151 of the Marlborough City Code and in conjunction with "Landscape and Screening" portion of the zoning ordinance (200-47). In general, fences may be erected after approval of a permit by the Building Department. Fences must comply with height limitations, setbacks, and lot lines. Any request for a variance from the ordinance requires a referral to the "fence viewers" who will convene on site and review the circumstances. A \$21.00 fee will be required. Fences should be erected a "reasonable" distance from your property line; normally considered to be the distance required to make any repairs to your fence without being on your neighbor's property. **PLEASE NOTE: a fence application is required for "living fences".**
