

CHRISTINE RECOMMENDS...

The Night Country
by Melissa Albert
Available as an e-book & audiobook on the Libby app

I'm so excited for this sequel to *The Hazel Wood*! The story began when Alice's mother was stolen away by a character from the Hinterland, the grim supernatural setting of her grandmother's famous books. Alice's only clue is a note from her mother: "Stay away from the Hazel Wood." Well, you'll never guess where she went to find some answers.

Just like the first book, this one has *Tales of the Hinterland* mixed in with the present day chapters. I'm looking forward to getting back into this creepy world.

Harry Potter and the Sorcerer's Stone
by J.K. Rowling
Available as an e-book & audiobook on the Libby app.
NO WAITING LIST!

Yeah, I know I'm not introducing anyone to Harry Potter right now, but when is the last time you re-read the books? Have you ever listened to the fantastic Jim Dale audiobooks? Book one is now available with **no waiting list for the month of April on the Libby app.** It's available in e-book & audiobook formats and in 15 different languages. I can't think of a cozier way to pass some time at home.

JULIE RECOMMENDS...

Daughter of Smoke and Bone
by Laini Taylor
Available as an e-book & audiobook on the Libby app

Daughter of Smoke and Bone is one of my go-to comfort reads, which might sound a little weird when you find out it is about a girl raised by monsters who collect human teeth for mysterious purposes. Intrigued? I certainly was. This book is a modern-day fairy tale that positively shimmers with magic and also showcases one of my absolute favorite protagonists in Karou, a teenager who just wants to find out where she came from but gets caught up in a timeless war between angels and demons instead. Girl can't catch a break!

With the Fire on High
by Elizabeth Acevedo
Available as an e-book & audiobook on the Libby app

With her baby daughter and aging abuela to care for, high school senior Emoni is used to putting her dreams

on the back-burner. The only place she can really let go is in the kitchen, where she loves creating delicious food for the people she loves. But then a new culinary class at school taught by a professional chef makes Emoni question everything she's told herself she can't do. If you're looking for a story that will soothe your soul while also making you incredibly hungry (luckily many of Emoni's recipes are included in the book) then this is the one for you! I highly recommend the audiobook version which is read by the author!
