Letter From the Director

Teens Weigh In on E-books

In May I participated in the Advanced Math and Science Academy's (AMSA) Career Fair. I talked to 9th - 11th graders about what it's like to be a Librarian. I was impressed with the number that sat down with me and wanted to make sure I knew how much they loved their library. I am always impressed by this. People never say they love any other institution quite like they say they love their library.

I took the opportunity to ask them about their reading habits. I get questions all the time about whether I am concerned about the future of libraries with the growing popularity of e-books. The AMSA students I spoke with talked about both formats being useful for different reasons. That's my opinion too.

E-books are great for people on

Margaret Cardello,
Library Director

the go, when you want to take a variety of books with you but you don't want to be weighed down by having to carry them all. But most students I spoke with still enjoy the printed book. One teen talked about using her mother's Kindle and just not liking it. Another self proclaimed "bookworm" loves cuddling up with a book and a cup of tea. She

says she does not feel quite the same way about an e-book.

I also talked to a Math Professor from WPI at the next table. He told me about how his students had the opportunity to download a math textbook for free or buy a printed copy. The students who bought a copy did not wish they had the e-copy, but some of the students who just downloaded the e-copy wished they had the print copy. Searching for keywords is much easier in the e-copy. Looking at diagrams was much easier in the printed version.

While reading habits are certainly changing, many people, teens included, seem to like more than one option for different reasons. Some like the portability of e-books and others prefer the printed book and some switch back and forth depending. In my opinion both will be around for a very long time to come.

Adult & Reference Services

Encyclopaedia Britannica Now Available on MPL Website

Starting in July, you will have online access to one of the best-known encyclopedias around. The Encyclopaedia Britannica started publication in 1768. No longer available in print format, this online information source provides all the same trustworthy information, scholarly essays, and easy access answers that you have enjoyed from the multi-volume sets over the years.

Go to marlboroughpubliclibrary.org; click on the "Online Databases" link in the left column; and choose the Encyclopaedia Britannica link to search and discover!

What Did They Say?

Perhaps you are a fan of historical novels, or just love to peruse history textbooks for all the facts, figures and commentaries.

But where can a history buff find the original words ... the materials that the historians use to draw their conclusions? The answer is primary sources, and the library has a variety of ways for you to explore these original words.

In our Reference Room, flip open *Documents of American History* (REF 973 Com) and you can lose yourself in the words of senatorial candidate Abraham Lincoln during his debates with Senator Stephen Douglas; read a speech by Malcolm X on Black Separatism; peruse major legal decisions, and more.

100 Key Documents in American Democracy (REF 973 One) gives you excerpts of Clarence Darrow's "Defense of John Scopes" among many other important documents.

The two volumes of *Documents in World History* (REF 909 Doc) will take you all the way back to ancient times with the Babylonian Code of Law.

The 20 volumes that make up *The Annals of America* (973 Enc) start the reader in 1493, and travel with you up to 1986.

If you prefer to peruse your history online, be sure to review *American Decades: Primary Sources*, one of the collections in the Gale Virtual Reference Library database. Spanning the 20th century this resource includes oral histories, songs, speeches, ads, TV, plays, letters, laws, cartoons, newspaper articles, recipes, and more! To access this multi-faceted resource, go to www.marlboroughpubliclibrary.org. In the left-side column, select "Online Databases." Under the heading "GENERAL" click on "Virtual Reference Library." On the left, under "Subjects" click on "History," and let the explorations begin!

Welcome, Summer PR Intern Danielle

Thanks to Mayor Vigeant and the City Council, there is now a Public Service Internship program that encourages local college students to intern within any department of the City of Marlborough. It is due to this program that we now have a summer intern, Danielle Sutherby.

Sutherby is a college student at St. Anselm, majoring in English and minoring in Communications. She

will be helping us to get the word out about our programs, especially Summer Reading and Reference programming. She will be creating press releases for all the local newspapers, updating our Facebook and Twitter accounts, making all those signs you see around the library and the City, and so much more.

Sutherby will also be working with WMCT (Marlborough's local cable station), to produce public service announcements about the library.

Sutherby is entering her senior year at St. Anselm and hopes to graduate and work in the music industry, either promoting bands or finding talent. She will be with us until August 9th.
