THE CITY OF MARLBOROUGH'S COMMUNITY CHOICE POWER SUPPLY PROGRAM

The City of Marlborough is announcing a new lower rate and longer term for its Community Choice Power Supply Program through its current supplier, **Inspire**. The City's new aggregation rate is fixed at **\$0.09390 per kWh for all rate classes for 41 months (August 2020 to January 2024)**. 100% of the power supply will be offset with National Wind Renewable Energy Certificates (RECs). National Grid's Residential Basic Service rate is fixed at \$0.09898 per kWh from May 1, 2020 through October 31, 2020.

It is important to note that **no action will be required** by individual consumers. All accounts currently enrolled in the Program will continue to see Inspire printed under the "Supply Services" section of their monthly bill. This rate change will be seen on the September 2020 bills. Consumers with questions about the Program should call Colonial Power Group, the City's aggregation consultant, at (508) 485-5858 ext. 1.

For more detailed information about the City's Program, including how to OPT-OUT or OPT-IN, or to access National Grid's Basic Service rates, please visit www.colonialpowergroup.com/marlborough/ or call Inspire at (866) 873-9300.

Basic Service rates change twice a year or more, depending on rate class. As a result, the aggregation rate may not always be lower than the Basic Service rate. The goal of the aggregation is to provide stability, predictability and on a yearly average be lower than the National Grid Basic Service rate. However, savings cannot be guaranteed.
