Get set for a Universe of Stories!

After a chilly spring in Marlborough, the library staff is so excited to roll out the **2019 Summer Reading Program** for all ages! This year’s theme is “**Space**,” so get ready for a supersonic summer at the library! Join us for educational, fun events that are out of this world!

It all starts with our **Kickoff Party** Saturday, June 22. The fun begins with Kosmic Kelly’s **Spectacular Science Show** at 11 a.m. Stick around for a **Pizza Party** and **Face Painting**.

Did you know that even if you have summer travel plans you can still participate in our summer reading program and have a shot at winning prizes all summer long?

Whether you’re packing up a stack of books to take on a trip or downloading an e-book while lying on the beach, all your vacation reading counts toward prizes!

Check out the children’s, young adult and adult sections of this newsletter to find out what summer reading activities are going on for each group and how you can participate.
June is GLBT Book Month™

The American Library Association (ALA) marks June as GLBT Book Month™, a nationwide celebration of the authors and writings that reflect the lives and experiences of the gay, lesbian, bisexual, and transgender community.

The ALA supports GLBT literature through the Stonewall Book Awards, as well as two bibliographies including Rainbow Books and Over the Rainbow Books. These awards and lists serve to recognize the very best in contemporary literature.

**Stonewall Book Awards** - The first and longest-enduring award for GLBT literature
**Rainbow Books** - LGBTQ Books for Kids and Teens
**Over the Rainbow Books** - LGBT Books for Adult Readers

People assume that things slow down at the Library during the summer. Many ask me if I plan to catch up on my reading. I always remind them that summer is one of the busiest times of the year at any library and particularly at the Marlborough Public Library.

Our programming efforts are designed to keep everyone, but particularly young people, reading and learning over the summer. Library staff design our summer programs with special incentives to motivate everyone to keep reading over the long hot summer. What books have you been anxious to read on your Kindle, listen to in your car or lounge on your deck with? Make sure to take time out to read this summer.

You pick what you like to read and Novelist Plus and other readers advisory tools on our website will offer you lots of options to help you make the most of your summer. All you need is a library card to get started.

Special Program for Tweens

Tween Arts Exploration

This summer we’re offering a special series of creative opportunities just for kids who are "in between." The weekly projects will encourage tweens (ages 8-13) to express their unique points of view and cultural backgrounds through writing, visual art, and food. The group’s creations will be displayed at the final exhibit in August. Learn more and find the full list of events at bit.ly/MPLTweenArts

The first event in the series will be Multimedia Self-Portraits Thursday, June 27 from 2-3:30 p.m. Use a variety of art supplies and collage materials to make a unique self-portrait in the style of your choice: abstract, realistic, or anything in between. Please pre-register for each individual event. You don’t need to come every week to be part of the group!

Tween Arts Exploration is brought to you with federal funds provided by the Institute of Museum and Library Services and administered by the Massachusetts Board of Library Commissioners.

*Foundryside*
By Robert Jackson Bennett

Sancia Grado is a thief, and a damn good one. Her latest target, a heavily guarded warehouse on Tevanne's docks, is nothing her unique abilities can't handle. But unbeknownst to her, Sancia's been sent to steal an artifact of unimaginable power, an object that could revolutionize the magical technology known as scriving. The Merchant Houses who control this magic—the art of using coded commands to imbue everyday objects with sentience—have already used it to transform Tevanne into a vast, remorseless capitalist machine. But if they can unlock the artifact's secrets, they will rewrite the world itself to suit their aims.
