More Changes Coming!

Developing a love of reading in children is a big part of what we do at the Marlborough Public Library. Reading skills are important factors in a child’s success in school and beyond.

In our recent survey many commented that the children’s space needs brightening and updating. In upcoming months the space will be painted, carpeted and new shelving and furniture will be purchased.

Funding will come from the combined efforts of the city of Marlborough, the Marlborough Public Library Foundation, the Board of Trustees, and the Friends of the Library.

All of the furniture and shelving will be portable so we can take it with us to any new building we plan. But in the meantime, we want to do what we can to attract children and families to this space so that they can take full advantage of all that our library offers them!

Tax Season

Public Libraries continue to be the main way people get copies of printed tax forms that the federal and state governments distribute. Most other organizations that used to provide tax forms have stopped doing so. That leaves libraries to continue the service, especially for people who do not have access to a home computer or just prefer to work with the forms in print.

You can find the tax forms on the tables directly across from the library entrance.

New! View Museum Passes on Google Maps

Did you know that we offer over 20 passes for free or reduced admission to museums, parks, aquariums, zoos, gardens and historical attractions? See page 7 for the full list of locations and our generous sponsors who make this happen.

We now have an interactive map that will tell you how far each attraction is from the library. You can easily sort by the type of venue. Just clicking on the icon will allow you to:

- See what discount the pass provides.
- Link to the venue’s website.
- Access our reservation page to reserve a pass.

Finding something inexpensive to do has never been easier! To view this map, visit our website at www.marlboroughpubliclibrary.org and click on “Museum Passes.”

Information Galore!

We live in a world teeming with endless amounts of information … so much so that you can easily feel quite overwhelmed by it all.

Our job is to help you find the answers to your questions from reliable resources so that you can feel confident that you are getting the best information available.

Sometimes, those answers can be found in a book, or a magazine, or a journal. Sometimes, the best place to start is with one of the excellent online databases we have available for you.

What is a database?

It is a collection of millions of articles and information from books and other published sources – newspapers, magazines, and reference books. Many of the articles look like they did when they were published, including charts, graphs and photographs. It’s reliable information that you can use for school projects or any time you want to read more about any topic.

What topics are covered?

You can find biographies of thousands of famous people; learn about books and novels old and new; access up-to-date business information; study diseases, medicines, and general health studies; learn about history, science and art; read a variety of newspapers articles; learn both sides of major national and world issues. All of this at your fingertips!

How do I access the databases?

The Marlborough Public Library provides access to a variety of databases through our website: www.marlboroughpubliclibrary.org. Click on the link “Online Databases” on the left-hand side of the page. This will bring you to “Online Reference Databases.” Click on the title of the database you want to use and start searching!
