ORDERED:

THAT, PURSUANT TO SECTION 5 OF CHAPTER 40A OF THE GENERAL LAWS, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF MARLBOROUGH THAT CHAPTER 650 OF THE CODE OF THE CITY OF MARLBOROUGH, AS MOST RECENTLY AMENDED, BE FURTHER AMENDED AS FOLLOWS:

- I. Chapter 650 is hereby amended by deleting the existing Section 650-33, entitled “Results Way Mixed Use Overlay District.”, in its entirety and replacing it with the following:

§ 650-33. Results Way Mixed Use Overlay District.

A. Purpose and objectives.

- (1) The Results Way Mixed Use Overlay District (herein, also RWMUOD) allows the application of supplemental land use controls within the boundaries of a certain overlay district, subject to City Council approval (Hereinafter any reference to City approval shall be deemed to mean approval by the City Council.) as an alternative to land use controls that exist in the underlying district(s). The establishment goals of the Results Way Mixed Used Overlay District are to enhance land use development and encourage desired growth patterns for the benefit of the public health, safety and welfare by promoting integrated, pedestrian-friendly, mixed use development to allow for the development of housing, retail and workplaces within close proximity of each other consistent with the stated economic development objectives of the City (collectively, herein mixed use developments or MUD).
- (2) For the purposes of this section, the RWMUOD shall be superimposed on the other districts existing at the time that any land in any said underlying district is also included in the RWMUOD. The RWMUOD is adjacent to Simarano Drive and Forest Street as indicated on the City Zoning Map. The RWMUOD shall consist of two separate subdistricts: (i) Subdistrict 1, as more particularly described in Exhibit A annexed hereto and incorporated by reference herein; and (ii) Subdistrict 2, as more particularly described in Exhibit B annexed hereto and incorporated by reference herein.
- (3) For the purposes of the Zoning Ordinance, a mixed use development or MUD shall include any eligible use set forth in Subsection E, below, which may be commingled into a single structure or structures with other eligible uses or may be located in separate structures on the site subject to any restrictions and/or limitations set forth in the development agreement described in Subsection C(2) below. Accordingly, mixed use developments shall benefit the public health,

safety and welfare through the sharing of parking lots and driveway curb cuts to minimize the amount of impervious paved parking areas, to reduce traffic congestion, to reduce automobile trips, and accordingly to improve air quality.

- (4) Within each subdistrict, one MUD shall be permitted, which shall each be subject to a separate development agreement and master concept plan, as described in Subsection C, below.

B. Authority of permit granting authority.

- (1) The City Council shall be the permit granting authority for special permit and site plan approval in the RWMUOD. In all instances, a development which proceeds under the RWMUOD overlay is subject to site plan approval in accordance with § 270-2 of the Marlborough City Code, with the exception that the City Council shall be the permit granting authority for special permit and site plan approval in the RWMUOD.
- (2) The City Council may elect to vary the dimensional and parking requirements of this section by special permit if, in its opinion, such change shall result in a substantially improved project and will not nullify or substantially derogate from the intent or purpose of this section. This authority continues subsequent to occupancy.

C. Master concept plan; development agreement. The property owner/developer of each subdistrict shall, prior to or simultaneously with the first application for approval of a site plan and/or special permit for the MUD within the applicable subdistrict, file the following with the City Council for approval:

(1) Master concept plan.

(a) A master concept plan (master plan) which shall in a general manner show:

- [1] The location and areas of proposed development;
- [2] Proposed open space (usable or natural);
- [3] Proposed site access curb cuts off of Simarano Drive and Forest Street; and
- [4] Proposed building envelope(s) where construction is anticipated to occur (excluding internal site driveways).

(b) A table showing approximate acres and calculations of the following:

- [1] Total land area of each development area (building envelope area);
- [2] Total development limitations, if any, of uses in any developable area;
- [3] Total maximum development (square footage/use limitations); and

- [4] Approximate number of parking spaces within the applicable subdistrict.
 - (c) The master plan shall be approved by a super majority (2/3) vote of the City Council at a public meeting and shall thereafter become the general development plan governing development at the applicable subdistrict. The master plan may be amended from time to time by a super majority vote (2/3) of the City Council by application from the property owner/developer to reflect changing development conditions.
- (2) A development agreement in recordable form binding upon the developer/property owner.
- (a) The development agreement shall be approved by a super majority (2/3) vote of the City Council prior to the issuances of the first permit/site plan approval for development within the applicable subdistrict, which shall contain, without limitation:
 - [1] Required mitigation (including traffic demand management initiatives) to address the impacts arising out of the use and occupancy of the proposed project, or if at the time of execution such impacts are not known, the methodology for assessing and addressing such impacts as the development of the applicable subdistrict progresses.
 - [2] Restrictions on development areas and such other development limitations as may be agreed upon.
 - [3] Proposed phasing of the development of the applicable subdistrict.
 - [4] Obligations with respect to pedestrian and vehicular interconnectivity within the applicable subdistrict to facilitate pedestrian access and parking efficiencies.
 - [5] The authority of the City Council to retain the necessary professionals to assist in its review of development applications.
 - [6] An agreement by the property owner/developer of the residential component of the property to make a one-time financial contribution to the City per residential unit developed within the applicable subdistrict for which a building permit is issued. This payment shall be due at the time of the issuance of the building permit for the unit(s). This amount is to be used by the City acting by and through the City Council to assist in the identification and implementation of zoning, economic and other strategies to foster professional, retail and commercial development initiatives as well as the

development of affordable housing which may include, without limitation, the preparation of a housing production plan in accordance with the rules and regulations of the Massachusetts Department of Housing and Community Development (760 CMR 56.03(4)) and the funding of the implementation of the goals and objectives set forth in such plan.

- (b) The development agreement shall govern the implementation of the master plan and development at the applicable subdistrict.
- (c) Notwithstanding anything contained in any current or future development agreement to the contrary, each development agreement shall only apply to the applicable subdistrict and shall not govern any development of other subdistricts within the RWMUOD.

D. Exclusivity/control. Except as specifically provided herein, uses and provisions of Article V of Chapter 650 (Zoning) relating to the underlying zoning district not otherwise impacted by this section (§ 650-33 et seq.) shall continue to remain in full force and effect; provided, however, that the City Council shall be the special permit granting and site plan approval authority, if applicable. This section (§ 650-33 et seq.) of the Zoning Ordinance exclusively controls the establishment, development, and design of any MUD undertaken in a subdistrict in the RWMUOD and supersedes any other provision of the Zoning Ordinance (except the provisions of the Water Supply Protection District, provided that the maximum total impervious surface coverage for the RWMUOD shall be 60% calculated on the entire land area of each subdistrict and not on an individual lot basis). In the event of any conflict between the provisions of this section (§ 650-33 et seq.) and any other provision of the Zoning Ordinance, the provisions of this section shall govern and control.

In implementing this goal the City Council shall consider complementary or shared use of parking areas by activities having different peak demand times, and the applicant shall locate adjacent uses in such a manner as will facilitate the complementary use of such parking areas. Implementation of such complementary use of

parking areas may result in permitted reductions in the parking requirements.

- (2) Granting of relief from signage regulations. The City Council may waive any of the requirements of the Sign Ordinance if it makes a finding that to do so will enhance the overall design of the RWMUOD.

I. Application.

- (1) An application for a special permit for a use in the mixed use development in the RWMUOD shall comply with the requirements of § 650-57 et seq. of the Zoning Ordinance. In general, a minor modification shall not produce more than a material increase in the scale of a project nor produce more than a material increase in impact on City services, the environment or the neighborhood. If it is determined that revisions to a special permit are not minor, per § 650-57 of the Zoning Ordinance, an application for a revised special permit shall be filed, and a public hearing shall be held in the same manner as required for a new application, subject to the fee schedule under Subsection C(3)(f) of § 650-57.
