

Marlborough
PUBLIC LIBRARY

Dear Marlborough Community,

As the shortest month of the year comes to a close, a lot of progress has been made on the new library. The main staircase was installed, drywall on the 2nd floor is almost complete, and the exterior glass walls have been delivered and are being installed as I write this.

Now, of course, what's a library without bookshelves? We've spent a lot of time this month finalizing what shelves need to be purchased to hold our great collection. I'm happy to share that no shelves will be so tall that you need a step stool to reach the top shelf. This allows for a more accessible, safe collection. I don't like being wasteful, so much of the older shelving units that we're using right now will be used in storage rooms.

We had a great time giving Mayor Vigeant a tour of the building in mid-February.

Warm Regards,

Sara Belisle

Director of the Marlborough Public Library
