

Lake Williams Trail

Lake Williams is 113 acres of water and land in the heart of the City. The one mile long trail which runs through the shady woods near the lake shore provides a wonderful walk with great lake views. The trail runs through young woodland and mature stands of trees, crosses wetlands on boardwalks and provides a view at the top of the hill. You are invited to walk or run and enjoy the nature the trail provides and you are encouraged to watch the birds that use this lake for feeding and especially during migration in spring and fall. However, because of the sensitive nature of Lake Williams, there is NO FISHING, NO PETS and NO WATER ACCESS. This will be strictly enforced.
